ACTION TAKEN REPORT 2022-2023

Stakeholder	Consolidated Feedback Received	Actions Taken
Students	Students suggested that more effort be made to arrange industry skills, communication skills, and soft skill courses for students.	Several steps were taken to improve students' soft skill expertise, including training sessions/lectures/workshops on communication skills, personality development, resume writing, and interview abilities.
	Inclusion and discussion of GPAT/NIPER/PGE CET questions	Informed the faculty to include MCQ questions during regular theory and practical hours
	Pharm.D Students have suggested to provide more clinical exposure and training	Focused training in hospital right from 3rd year, in small multiple batches for better understanding as Clinical Demonstrations is being provided
	Providing hands-on training workshops so that they can get an exposure to the knowledge of working with instruments	Students undertake industrial/hospital training. Pharmacy practice curriculum includes training in the hospital. They are also given hands-on training in the latest instrumentation techniques.
	To include more Industrial visits	College is planning to include more industrial visit to cater the needs of students
Teachers	Upgradation of Labs and better	College has procured new

	instrumentation was suggested	instruments to provide support to the curriculum delivery
	Conduct workshop on Statistical Analysis/Research methodology	Planned to conduct workshop on pharmaceutical biostatistics and research methodologies
	Need for providing more opportunities for attending conferences has been suggested along with more research opportunities and infrastructural facilities.	College has taken cognizance of this parameter and these concerns were shared with the relevant authority for consideration and appropriate action
	To update and upgrade the college library	Recent and latest editions of textbooks and reference books have been made available in sufficient numbers in the college library to meet-out the requirements of the students.
Alumni	Curricular revision should be done to introduce more skill-based courses	Add-on courses were planned to include more skill-based courses
	Train students with latest technologies	Experiential and simulation learning were planned to inculcate students with latest technologies
	Invite industry experts to campus	Industry experts were invited for mentoring the students under student training programs
	More seminars, field trips, pre-placement training, substantial internship possibilities, exchange initiatives, and fostering a solid student-teacher bond have been suggested to improve students' learning experiences for their	College took cognizance of these suggestions and have taken appropriate measures to address all these issues in the curricula of different programs.

	overall growth.	
Employer	The curriculum should have more focus on employability	College planned add-on and value-added courses, is providing with more internship/field projects/research projects/industry visits to enhance the employability of the programs
	Students need to be abreast of contemporary industry needs.	More industry Academia interaction platforms are being provided to the students
