### Restricted use of plastics

Hazards of using plastics are made understood to students and to the general public to create awareness and to imbibe the culture of avoiding the use of plastics. NSS team of our college conducts programs of cleaning the campus for any plastic wastage inside and outside of the campus. Display Boards stating "NO USE OF PLASTIC" are placed in different area of the institute to create awareness among them.

Program for EXCHANGE OF PLASTIC WITH RICE

### Use of pedestrian friendly pathways

Roads inside the campus are well laid and maintained making friendly pedestrian walk ways. The speed of the automobiles is restricted to lowest speed in the campus to avoid accidents, Campus encourages walk –more, burn calories and be-healthy.

### Land Scaping with trees and plants

Institute has clean and green campus with large varieties of trees all over, creating a peaceful and oxygenated environment. The variety of medicinal plants is also cultivated in medicinal plant garden and other ornamental plants have been planted in the campus. Plantation or sapling program is organized by NSS and on different occasion such as state government initiation HARITA HARAM and SWACHH BHARATH in the campus to encourage green practices and to save trees.
